Braunston Cubs

This month's Cubs report is on page 29 of the BVN. Braunston Cubs have remained active at home. Here's what a few of them have been up to.

Clayton Rodhouse has already earned 6 Badges at Home by full-time caring for the family pet, reading and reviewing 6 books, hiking around Braunston, gardening, learning the use of DIY tools to make a bird box and to build bug 'hotels' and study the nature around him. This has netted him: Animal Carer, Book Reader, DIY, Gardener, and Environmental Conservation and Hikes Level 2, badges.

Clayton's bug hotels are on pages 12 and 13.

Clayton Rodhouse and the amazing bug hotel he made to earn another Cubs' Badge at Home

More of Clayton's work

Joe

Joe loves his art. He made a Braunston Scarecrow and narrow boat model as well as paintings, dried flowers, pottery, Lego models and, yes, Minecraft worlds. You might have seen him and his mum running round the village. He misses his swimming and sailing but by sending Akela his RYA and Swimming certificates gets his Swimming, Sailing level 2, and Times on the water 10, to add to his Artist Badge

Mckenzie Moore

Mckenzie has seized the opportunity of time off school to earn badges. Nurturing his small fruit and veg plot will net his Gardener badge soon. He's done long walks to see nature, climb trees and even kicked a ball about!. Helped at home by cooking and has eyes on art next so by the time you read this he will have Artist, Home help and Gardener Badges to add to Chef and Hikes Level 5 earned already.

Jonathan Williams

Jonathan had great fun cooking for his brother, he even drew a menu. This was part of earning his Chef badge and this spurred him on to be the first Braunston Cub for over 10 years to earn the Home Help Badge (and inspired other Cubs to go for it) to add to his Book Reader Badge earned at home too.

Isla and Logan Boddington have also been really active, taking part in the Treasure Hunt, Lego Bionicle and Dinosaur building challenge (see June BVN) Walking, Cycling and both are great cooks - check out their cakes baked to make VE day extra special pictured with scout sister Lily - a truly Scouting Family!

Christoph Hummel shows his practical skills in ensuring a good view of what he is cooking. Not afraid to get amongst the dirt, he helped plant the Cub Garden as well as starting a garden at home. He loves doing Airfix models and painting them too, so is on his way to Chef, Gardener and Hobbies Badges.
