November sees the publication of the Alternative Service Book. As its name suggests, it is an alternative Prayer Book to the more familiar Book of Common Prayer, first printed in 1662. The Parochial Church Council recently decided to buy one hundred copies for our regular use in Church. Copies will be on display and we hope that, with a discount for encouragement, we might persuade parishioners to buy a copy for their own use.

These books, together with copies of the "Family Worship" will obviously need to be kept tidily yet somewhere where they may be readily accessible. The Rector would therefore be interested to hear from anyone who has a bookcase, preferably with glass doors which may be given for this purpose.

BRAUNSTON VILLAGE GARDENS ASSOCIATION. The A.G.M. of the Association will be held on Tuesday, November 18th in the Village Centre at 8 p.m. This is a public meeting, and anyone is most welcome. The Braunston Show was a great success this year - the income of which was £215. Expenses however were £158, thus making a profit of £57. In former years we have given the larger part of any profit to various organisations in the Village - This year too - a donation will be given to one of the Youth Organisations, but the Committee have decided that the greater part of the profit will be used to further the aims of the B.V.G.A. The rose beds in the village will be replanted. At the A.G.M. there will be a detailed account of the Association's monies. Anyone wanting further information is asked to attend.

BRAUNSTON PARISH COUNCIL. Justifiable complaints have been received from the P.T.A. and other people about numerous instances of dogs fouling the public footpaths. To allow a dog to perpetrate this act is quite antisocial, and under the County bye-laws is an offence PUNISHABLE BY A FINE. This unhygienic practice can spread unpleasant diseases, and so the Council and residents of the Village would appreciate the efforts of dog owners to ensure that footpaths are not fouled to the danger of the public.

BRAUNSTON - THE ROYAL BRITISH LEGION REMEMBRANCE SERVICE will be on Sunday, 9th November at 3 p.m. Next meeting November 18th at the Sheaf, Braunston.  
PLEASE GIVE GENEROUSLY FOR YOUR FOPPY

VILLAGE NOTES. Recently when some earth was moved in Braunston, an animal like a minute crocodile was disturbed. It was a newt - one of our Amphibia (the Greek word means that this animal is capable of living either on land or in water). In addition to Newts this family includes Frogs and Toads. They are cold blooded creatures - i.e. they cannot control their body heat as can dogs, sheep, and humans, but remain at the temperature of the air or water in which they are living. Therefore when the temperature of the air or water drops too low for comfort they must find winter quarters in which to hibernate. They breathe as much through their skin as through their poorly developed lungs and so they must remain moist - in a damp place free from frost. All of this family breed in water, and spend the early months of their lives as tadpoles. Frogs and toads leave the water but are restricted to fairly damp habitats, and return to the water to breed. As well as their lives as tadpoles, newts spend most of their adult lives in water, coming on land only occasionally. The food of these animals is largely made up of insects and so they are good friends to the gardener and farmer.
