The Rector and family flew out to start their new life in Australia on October 9th. We wish them well in this big venture. On behalf of the Rector, Thelma and the children, the Churchwardens would like to thank everybody who so generously contributed to the collection for the gifts presented to them on their departure.

We now face a difficult period of interregnum until a new Rector is appointed. These things do take time and we may well be several months without an incumbent. During this time please contact the Churchwardens if you require the services of the Church.

BRAUNSTON FRIENDLY CLUB

The Club's 21st Birthday Party was a great success. The Birthday cake made by Mrs. Cynthia Biddell and cut by two of the oldest members, Mrs. M. Turner and Mrs. V. Johnson. Mrs. Turner, who has been Treasurer since the Club was formed in 1964, was presented with a lovely basket of flowers by Mrs. Janet McCarthy. A decorated fruit cake was given by Mrs. Daphne Harriman, who was a helper of the Club, and has now moved to Bournemouth. A large box of chocolates was given by Mrs. Pauline Gurney and a lovely doll dressed and given by Mrs. E. Merchant as draw prizes.

Lady Christian Hesketh and Mrs. Nell Leach of the W.R.V.S. and Nurse Susan Davidson, all of whom attended the first meeting for the formation of the Club, were present. After an excellent meal prepared and served by the Committee and helpers, members were entertained by the Singers "Four in Accord" of Northampton. Mr. John Bradshaw was pianist. VILLAGE COMPLAINTS

Two subjects give rise to complaints in the village:-

- (1) The excessive speed at which motor vehicles are being driven through the village. The legal limit of speed through the village is 30 m.p.h.
 - (2) The fouling of pavements by dogs.
- Motorists of all kinds and owners of dogs are asked to consider other people.

VILLAGE NOTES.

The decline of the varieties of butterflies is indicative of the disappearance of many varieties of insects. 40 years ago 25 species of butterflies were observed in our neighbourhood but only 13 this year. This is reflected in the decrease in the number of bats flying in the evenings. These interesting animals developed their radar system long before our scientists gave us more sophisticated instruments. They emit a sound (inaudible to our ears), which echoes off anything solid in their path and thus allows them to fly in darkness or very dim light, while they search for insects.
