Our deepest sympathy is extended to those who have lost loved ones in recent weeks.

The grapevine may be a faster means of communication than any other, but it is not always the most reliable! Whilst it is certainly true that the Rector and his family will be leaving for Australia to take up the appointment of the parish of Berry and Kangaroo Valley, it is not true to say that he has either left already or that he (or anyone else at the moment) knows when the moment of departure will come! Further, and hopefully more accurate, news will be given when it becomes available.

CHURCH FETE Will take place, as usual, on the first Saturday in July from 2 p.m. on the Rectory lawn. There will be the customary variety of good stalls and sideshows and strawberry cream teas. Come and enjoy a good afternoon with us. If we will meet in the Village Centre.

DEANERY PICNIC For a number of years now we have enjoyed an afternoon together, as members of the different Churches in the Daventry Deanery, surrounded by the natural beauty of Fawsley Park. This year the Bishop will be speaking at the open air service. Bring a picnic and enjoy a good afternoon.

DON'T FORGET If you need transport to any of the Church services or events, please contact Peter Surman (Tel. Rugby 890246) Should you wish to visit or attend hospital ring the Rector.

BRAUNSTON VILLAGE HALL MANAGEMENT COMMITTEE

Would all parents please point out to their children the dangers of climbing on the Village Hall roof and the adjoining storage shed roof. We don't want the summer holidays spoiled for everyone by there being a nasty accident.

BRAUNSTON PARISH COUNCIL reminds cyclists that they should not ride their machines on the pathways. These are for pedestrians only.

THE NATIONAL CHILDREN'S HOME need a local contact for the House-to-House appeal.

Could you help? Please phone - Mrs. Birt 890113 or call 64 High Street.

VILLAGE NOTES.

The workers of the Humble Bee mentioned in the June B.V.N. do not survive the winter but those of the Honey Bee hibernate in a hive provided by the beekeeper, in a hollow tree, in a house or barn loft where there is shelter from rain and snow.

The store of honey accumulated during the summer will be used up when the bees begin to stir from their sleep. This sometimes occurs in a mild spell in the winter and bees leaving the hive often perish in this way.

In 1904 many stocks of bees fell victims to a plague of Whites - a disease taking its name from the place of its first detection, the Isle of Wight.

So destructive was this disease that beekeepers had to replenish their stocks from bees imported from Italy. These have served in honey production and fertilization of clover and fruit crops for over 70 years.
